

"The Chief's Corner"

September 2017

Jonesville has placed in service on our Rescue Truck R373, a Scott RIT-PAK III Portable Air Supply.

This is now part of our F.A.S.T. (Firefighter Assist and Search Team) equipment. A F.A.S.T. is dedicated to rescuing a downed firefighter in distress. The RIT-PAK III allows for the supplying of breathing air to a downed firefighter if necessary.

The components of the kit contain the following:

- Air cylinder
- High pressure connector
- Emergency facepiece and regulator
- Low pressure connector

Firematically yours,

A handwritten signature in black ink, appearing to read "Patrick J. Champagne". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Patrick J. Champagne
Chief – Jonesville Fire Department
