Fire & EMS Training Courses

PRE-REGISTRATION IS REQUIRED on "ALL" Training Courses. Contact Chief Champagne if interested in attending any EMS or firematic courses; contact him at pchampagne@jonesvillefire.org, or cell phone # 518-423-5098 and in addition, please fill out a Course Request Form and put it in the Chief's folder at either station. This form will be in a folder at either station, or available at the District Office

TRAINING:

TOP FIVE (5) FIREFIGHTERS for March (55 alarms): Jim Miller (45), Uzair Ahmad (41), Rob Ritter (31), Aidan Ritter (30) and Geoff Frey (30).

HAPPY MAY BIRTHDAYS: Pat Liddy (8), John Axten (11) and Scott Johnston (17).

From the Office of the Chief

NYS AFC will make a decision on May 8th whether The Chief's Show is cancelled.

The Chiefs' Show will be held June 10-13, 2020 at The Oncenter, Syracuse, NY. If you are interested in attending, please contact Chief Champagne by May 1st, and indicate which of the following you are interested in:

- (a) Hands on Training*
- (b) Conference Full Term (Education Programs)
- (c) One Day Pass (Exhibits Only)

***Please see attachments to the Jottings for information on the Hands-on Training Programs.**

Firefighters of the Month – April 2020

Easter Parade Crew

John Axten, Nick Buonanno, Lenny Casper, Mark Cecilione, PJ Champagne, Rich Craver, Andrew Dewald, Joe Family, Chris Fox, Geoff Frey, Scott Johnston, Ryan Klimkewicz, Justin L'Amoureux, Erin Mackey, Jim Miller, Gabe Moronta, Aidan Ritter, Rob Ritter, Tom Tobin, Charlie Willoughby and Zach Wolfe.

Congratulations

**Congratulations to Jim and Linda Miller on the birth of their third grandchild!
John Benjamin Miller was born on April 20, 2020 weighing in at 9 lbs. 10 oz.
Proud Parents: Dan and Katie Miller**

Social Use of the Training Room at Station 1 for social use by Jonesville Vol. Fire Department Members, Jonesville Ladies Auxiliary Members, and staff. If you are interested in using the room, please contact the district office at 877-8100 for an application form and a copy of the policy.

From the District Office
Defensive Driving Course – Reimbursement

The Board of Fire Commissioners approved reimbursement up to \$40 for a six-hour defensive driving course taken within 2 ½ - 3-year intervals by active firefighters and district staff members. Courses can be taken through any accredited agency or online (e.g. Idrivesafely.com). To receive reimbursement, please submit a copy of the certificate and a copy of the invoice. Please contact the District Office if you have any questions.

Notary Services and Voter Registration forms are available in the District Office.

Total Runs – 2020

January	70	July
February	104	August
March	55	September
April		October
May		November
June		December

Grand Total as of 12/31/2020 –

Interesting Membership Facts – Update

<i>Active Membership as of April 30, 2020</i>	70
Average Age:	46.36
Members age 90	2
Members age 80-89:	0
Members age 70-79:	6
Members age 60-69	14
Members age 50-59:	12
Members age 40-49:	10
Members age 30-39:	6
Members age 18-29	16
Members under age 18:	5

*******Planning Ahead*******

June 10-13	NYS AFC Chief's Show	Syracuse	
Oct. 24	Halloween Open House	Station 1	5 – 8 p.m.

If you need information posted in the Jottings, please submit the information in writing by May 27, 2020. Phone (518) 877-8100. Fax (518) 877-7617, Email: jbayer@jonesvillefire.org

NYSAFIC 114th Annual Conference
HANDS-ON TRAINING FORM
Conference: June 10-13, 2020 • Expo: June 11-13, 2020
The Oncenter • Syracuse, New York

Registrant Information

Use one form per person. Conference badge will be mailed to address below.

Name: _____

NYSAFIC Member # (if applicable): _____

Title: _____

Department: _____

Address: _____

City: _____

State/Province: _____ Zip Code: _____

Country: _____ County: _____

Cell Phone: () _____

Email: _____

Program Registration and Fees

Select training program(s) and indicate desired training day(s) and session(s). Only one program can be completed each day. Training will be conducted on June 11 and 12 at the Syracuse Fire Department Training Center, unless otherwise noted on the student registration confirmation. See second page for training session descriptions and student prerequisites. Hands-On Training registration also includes Conference Full Term registration (allowing entry to exhibits and classroom education programs).

Advanced Thermal Imaging Camera Ops (8-Hour Live Fire Program)

NYSAFIC Member: \$335 / Non-Member: \$385 / per person, per session
Thursday Session Friday Session

Advanced Vehicle Extrication (8-Hour Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session Friday Session

Aggressive Interior Fire Attack (8-Hour Live Fire Program)

NYSAFIC Member: \$335 / Non-Member: \$385 / per person, per session
Thursday Session Friday Session

Fire Behavior on the Inside (8-Hour Live Fire Program)

NYSAFIC Member: \$335 / Non-Member: \$385 / per person, per session
Thursday Session Friday Session

Fire Flows and Water Supply: Numbers Don't Lie (4-Hour Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session A Session B
Friday Session A Session B
A: 8:00 a.m. - 12:00 p.m. / B: 1:00 - 5:00 p.m.

First-In Officers' Responsibilities (8-Hour Live Fire Program)

NYSAFIC Member: \$335 / Non-Member: \$385 / per person, per session
Thursday Session Friday Session

Hoarder Fires (4-Hour Live Fire Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session A Session B
Friday Session A Session B
A: 8:00 a.m. - 12:00 p.m. / B: 1:00 - 5:00 p.m.

Machinery Rescue Ops (8-Hour Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session Friday Session

Multifaceted Elevator Rescue (8-Hour Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session Friday Session

Truck Company Essentials: The Tasks That Must Get Done (8-Hour Live Fire Program)

NYSAFIC Member: \$335 / Non-Member: \$385 / per person, per session
Thursday Session Friday Session

Truck Company: Saw Work and Roof Ops (4-Hour Live Fire Program)

NYSAFIC Member: \$235 / Non-Member: \$285 / per person, per session
Thursday Session A Session B
Friday Session A Session B
A: 8:00 a.m. - 12:00 p.m. / B: 1:00 - 5:00 p.m.

NYSAFIC Membership

Join or renew your membership. \$40 annual dues payment.

Prerequisites, Cancellation Policies, and Program Descriptions

Course Prerequisites (or Equivalents) for All Programs: Firefighter I OR Basic Firefighter and Intermediate Firefighter OR Firefighting Essentials and Initial Fire Attack. Each student must also provide a signed authorization letter from the chief of his/her department (sample letter will be provided with student registration confirmation). All students must be interior qualified under New York state requirements to participate in live fire training programs. *PPE requirements will be provided with student registration confirmation.*

Cancellation Policies: Training cancellations must be submitted in writing to NYSAFCA. A service fee of 25% will be applied. Unused badges (with all entry stubs intact) must be returned with a letter of cancellation to receive a refund. The deadline for requesting refunds is July 13, 2020. Individual hotel cancellation policies apply. NYSAFCA does not assume the responsibility for canceling hotel reservations if the association is notified of cancellation of your training registration.

Advanced Thermal Imaging Camera Ops*

When was the last time you trained with a TIC? At your last fire? NYSAFCA's instructors have spent years working with thermal imagers and have found more uses than you can imagine to get the most out of your department's TIC investment. Students will be armed with knowledge to take back to their departments to ensure that the camera is one of the first tools off the vehicle at more than just fire events.

Advanced Vehicle Extrication

This program will provide a fast-paced extrication experience covering all aspects of vehicle extrication, from stabilization to plenty of tool time. Evolutions will include wheel, roof, and side resting vehicles with minimized vehicle access. Students will be challenged to use their skills to perform scenario-based extrication with victim rescues, scene hazard recognition, and mitigation.

Aggressive Interior Fire Attack*

This intense program will offer a unique opportunity to put your skills to work in live fire. Students will join seasoned instructors as they review techniques that are essential for survival in today's fire environment. Skills that will be enhanced include effective and efficient hose stretches, hose loads, hoseline operation, standpipe and defensive operations. This challenging program will push you to your limits.

Fire Behavior on the Inside*

This intense live fire training will provide firefighters with the rare opportunity to view changing fire conditions as aggressive interior tasks are performed. Firefighters can expect eight hours of live fire with an emphasis on heat, smoke, and air movement throughout the fire building. The effects of window failure, vent-enter-search, door control, and more will be viewed from the inside during this unique fire behavior course.

Fire Flows and Water Supply: Numbers Don't Lie

In this program, students will measure fire flows and discover what a rig is capable of on the fireground with and without additional water supply. Participants will learn how to determine the water supply capability of a department with and without hydrants, understand the true numbers to flow to accomplish goals, and use equipment to its full capability. This program will demonstrate that just because you have the equipment, it doesn't mean you can use it.

First-In Officers' Responsibilities* *NEW!*

In this new program, students will operate in the roles of first and second due engine and ladder company officers. Basic firefighting practices and principles will be reinforced with emphasis on leading a team of firefighters at structure fires. Participants will have the opportunity to assume the role of both company officers. They will be actively performing size up, reporting to the incident commander, and communicating with other company officers while supervising their crew during hoseline stretches, search for fire and victims, suppression, and overhaul.

Hoarder Fires*

This program is designed to challenge both engine and truck companies in dealing with a hoarding situation under fire conditions. Each student will complete both engine and truck evolutions under heavy smoke and high heat conditions. The truck company will be placed in a scenario where they must remove an unconscious victim through a moderate to heavy hoarding environment. The engine company will advance and flow a 1¾-inch handline through an extreme hoarding environment while clearing a path for advancement of the hoseline.

Machinery Rescue Ops

Whether it's the butcher shop in town, the auto repair shop on the corner, or the farm down the road, the potential for machinery rescue incidents is everywhere. In this program, rotations will cover tool familiarization, torch use, size up, and lock-out/tag-out. Students will participate in scenarios that involve meat grinder entrapment, hand/finger entrapment, fence impalement, auger entrapment, and real machinery. You don't have to be in a heavily industrial area to encounter these incidents.

Multifaceted Elevator Rescue

You've been to an elevator rescue that has gone wrong. This program, conducted by one of the best elevator rescue teams in the country, will help students understand all facets of elevator rescue. Working in actual elevators, students will perform real life rescues. You'll leave this program with the advanced knowledge required for operations in both modern and older elevators.

Truck Company Essentials:

The Tasks That Must Get Done*

This program will focus on the fireground truck company tasks that must be accomplished during the initial stages of structural firefighting. Students will be instructed in the principles of forcible entry, building search and rescue, the use of ground ladders, and vent-enter-search tactics. They will be challenged by some of the country's most experienced instructors, who will share various tricks of the trade, safety tips, and their vast knowledge of these essential assignments.

Truck Company: Saw Work and Roof Ops* *NEW!*

This new program is geared toward firefighters already possessing the basic knowledge and skills required for roof operations. It will provide an overview of basic saw maintenance and operations, the cutting of different materials, and ventilation and forcible entry cutting techniques, culminating with roof saw ventilation under live fire conditions. Students should expect to be physically challenged, as they will work in teams to cut on both flat and pitched roofs, as well as in different forcible entry situations.

* Live fire programs

Training will be conducted at the Syracuse Fire Department Training Center, unless otherwise noted in the student registration confirmation.
